<p>P-3-F10 Policy Originator: Ron Hannon Coast Conference</p>	<p>Article 7.4.12.10.1.F- G and 7.4.12.10.2.D- E</p>	<p>7.4.12.10.1 (A – E: No change.) <u>F. When a recruiting violation involving Bylaw 2 occurs, the student-athlete shall be deemed ineligible for participation at that institution during that season of sport.</u> D.E. Other penalties as shall be imposed by the conference commissioner, the conference, or the CCCAA Board.</p>	<p>The new language would eliminate an unfair advantage to colleges involved in recruiting violations by not allowing them to certify the student-athlete as an eligible participant at their institution. The student-athlete would either have to sit out a year of competition should they remain at that institution or transfer to another institution to compete.</p>	<p>Under the current possible sanctions outlined in Article 7.4, commissioners can decide whether or not to declare a student-athlete ineligible at the institution involved in a violation of Bylaw 2. As a result, an inequity from conference to conference is formed should one commissioner decide to impose this sanction versus another that may not. Should a commissioner decide not to penalize the college by allowing the student-athlete to participate after a violation has occurred, that institution is rewarded by allowing the student-athlete to participate despite committing the violation. This gives them an unfair advantage over every school on their schedule and those they may face in postconference competition. This timeframe also gives Institutions/Counseling offices adequate time at the beginning of each term to properly counsel and process the Ed Plans. While it is possible that a student athlete may begin competition in their first year without an Ed Plan, this legislation ensures that they could not finish that season without completing a plan, which would provide sufficient motivation for the document's completion.</p> <p>Effective date: July 1, 2011</p> <p>Constitution Committee: Filter okay.</p> <p>Policy Committee: Filter okay.</p>

P-7-F10 Policy Originator: Gary Bluth 5CTCA	Bylaw 1.15.9	1.15.9 An unattached competitor is an individual who is enrolled in and attending a California community college as a California community college student and is not listed on an official college team roster FORM 3. Such individuals may not compete as a member of that college team or unattached in any scheduled California community college game , meet, or match <u>that appears on their college's official team's schedule</u> . Such student athletes are ineligible and all contests in which they compete are forfeited.	The current rule will make it easier for an unattached athlete to follow.	Prior to attending a meet, it is extremely difficult to determine if any other community college has that meet on their official schedule. Effective date: July 1, 2011 Constitution Committee: Filter okay. Competition Committee: Filter okay. P-8-F10 Policy Originator: Keith Shackelford Orange Empire Conference	Bylaw 2.1.G	2.1 ATHLETIC RECRUITING Athletic recruiting is defined as any solicitation of an individual, a member of his/her family, legal guardian, or coach by a college staff member or by a representative of the college's interests to encourage enrollment in that institution for the purpose of athletic participation. The following are allowable activities for recruiting within a college's recruiting area: A. <i>No change.</i> B. <i>No change.</i> C. <i>No change.</i> D. <i>No change.</i> E. <i>No change.</i>	On-campus, in-class tryouts will allow colleges, coaching staffs and prospective students opportunities to discuss the appropriate opportunities for each interest group. The reality of students' willingness to travel farther to find the best academic and athletic fit for their future means that a structured tryout, consistent with a college's risk management policies, is in the all interest groups' best interests.	With the reality of expanded recruiting and college marketing (either through web-based information, college outreach, state-wide recruiting, etc.) prospective student-athletes from outside a college's service area continue to make self-paid recruiting visits to our colleges. CCC coaching staffs cannot accurately access the prospect's chances of playing for their program without an opportunity to see the prospect perform as part of a tryout. As such, prospects are taking a major risk in attending a college that may be far from their hometown. That risk may include significant financial commitments in housing and living expenses, or in lengthy commutes that may

This will place the prospective student-athlete, their family and the coaching staff in a position to speak frankly and to make a decision most beneficial to the student.</p> <p>The tryout must be conducted as part of a regularly scheduled class that is associated with the college’s intercollegiate team, and in a manner consistent with that college’s risk-management policies on waivers, guests, visitors, auditing of classes, etc. As each institution is permitted the opportunity to manage their own operations and risk management policy in the most effective manner for their purposes, each college can establish policies to permit such activities.</p> <p>Effective date: July 1, 2011</p> <p>Constitution Committee: Supports the current policy and has concern regarding the potential exposure to liability from this proposal.</p> <p>Policy Committee: Filter okay. A district's "recruiting area" is defined as the district itself and its contiguous community college districts. <u>California community colleges may recruit throughout the State of California. In order to recruit outside the State of California, California community colleges must have written approval, "out-of-state recruiting rights" by the CCCAA Board (Bylaw 2.5)</u></p> <p>B. Contiguous districts are those that share a common geographical boundary with another community college district.</p> <p>B. <u>The State of California is defined as only those community college districts belonging to the Community College League of California (CCLC).</u></p>	<p>To allow California Community Colleges the opportunity to recruit student-athletes from within the state. To create an opportunity for student-athletes to experience cultural diversity in various geographical locations. To create a system for distributing excess student-athletes to programs, or districts, that need numbers to participate in conference competition. To offer a variety of athletic and academic support programs to student-athletes within the Community College League of California. To increase the number of female participants in California Community College Athletics.</p>	<p>Encourages California community colleges to recruit California residents before turning to out-of-state student-athletes to fill depleted rosters. We currently allow 11 colleges to recruit out of the state; nine with no restrictions outside of California and two with restrictions. This equates to 12.5% of our member colleges which can recruit outside of our state, but not recruit the State of California. It allows California community colleges without a sports information director (which is the majority), to promote and market athletic programs on a large scale with limited budgets. Offers opportunities for student-athletes from rural areas to experience the diversity of college life in metropolitan areas, and it offers opportunities for student-athletes in metropolitan areas an opportunity to experience college life in rural areas. Enables student-athletes that are released from larger community college programs, an opportunity to explore other options at a community college that is in need of participants. Eliminates the controversy that surrounds accusations of illegal recruiting, and allows all colleges the opportunity to promote their programs (Currently all colleges with a website are recruiting out-of-district athletes, and out-of-state athletes, legally). As the budget crises continues to hinder educational budgets at every level and our enrollments at the community college continue to grow, we need to ensure that students who want to participate in community college athletics have a place to compete. As colleges reduce athletic offerings we need to provide a vehicle to recruit athletes to colleges that offer their</p>

Our rules currently prohibit coaches from wearing gear that identifies their college outside of their recruiting area, which allows colleges that host major high school events the opportunity to be seen, while many coaches present are in regular clothes. Not being able to identify our institutions and our interests in said athletes is a disservice to community college athletics. People need to know that we are out there and we are interested in their student athletes.</p> <p>Gender Equity Impact: The impact on Title IX will be a positive one. This legislation will create more opportunities for female athletes to participant in intercollegiate competition. Presently larger community colleges have roster limits in some sports, and end up cutting athletes from the squad. These athletes will be able to attend another community college and participate for a team that is in need of numbers. This will open up more opportunities for a female athlete to earn a scholarship to a four-year institution. This legislation will also increase the opportunity for the female student-athlete to research colleges that have a major and sport that fits their educational goal and their physical ability.</p> <p>Effective date: July 1, 2011</p> <p>Constitution Committee: Committee questions need for B, defining the State of California. In some cases these athletes are “cut” from the team a day or two after the official sport practice/scrimmage start date begins. When this occurs, the student is not eligible to compete in the sport at any other California community college that year. This is an injustice to the student. P-17-F10 Policy \$ Originator: Pam Kelly 5CTCA	Bylaws 7.2.4.B and 7.2.5.E	<i>For regional and state cross country awards, men and women:</i> <u>7 medals 3rd place team</u>	To provide medals to the individuals on the third-place team.	The first, second and third place teams are recognized at an awards presentation after the championship event. At that time individual awards are presented to the top seven on the first and second place teams. During the award presentation, the third place team is also recognized, but individual medals are not presented. This amendment would allow medals for the third place team individuals. There are 28 teams competing in the state championship and over two hundred and thirty runners. Giving medals to the third place team is still within the mission of Bylaw 7, to "honor those who have achieved the highest level of achievement". There are over 65 colleges competing in cross country and to honor the individuals on the third place team would enhance the quality of the event for the athletes. \$ Increase to event budgets (4 regional and 2 state for men & women) 6 x 7 medals (42) at approx. \$5.00 = \$210 Effective date: July 1, 2011 Constitution Committee: Filter okay, with reservations. The 5th – 8th individuals are recognized at an awards presentation at the conclusion of their event. These individuals contribute points towards the team championship. This amendment would continue to allow medals for the 5th through 8th place individuals and recognize them for their achievement. In some events there are over 200 individuals competing throughout the state. Awarding medals to the 5th – 8th place finishers is still within the mission of Bylaw 7, which is to “honor those who have reached the highest level of achievement”. There are over 61 colleges competing in track and field and to honor the individuals who place 5th-8th would definitely enhance the quality of the event for those athletes. There is a precedent for awarding more than fourth place medals as wrestling currently awards medals to the top six individuals at their state championships.</p> <p>\$ Increase to event budgets (2 x 104 state for men & women = 208. 208 medals at approx. \$5.00 = \$1040.</p>

They are commonplace in most public facilities/buildings (including community colleges), have become the standard of care in dealing with sudden cardiac arrest and should minimize liability to the schools. Recent statistics indicate that over 100 college and high school athletes, including about 10 in California, die every year as a result of their participation in organized competitive athletics. This doesn't include spectators, staff, and officials who have also died during practices and contests. More than 40% of these deaths are confirmed related to sudden cardiac events. Of those deaths with known causes, more than 60% of deaths are related to sudden cardiac arrest. It has been established that in cases such as these, if an AED is applied within the first 3-5 minutes, the chances of saving a life goes from less than 5%, to over 70%. Each of the last two</p>

				<p>years, a community college student athlete's life was saved by an athletic trainer that had immediate access to, and was able to promptly employ, an AED.</p> <p>\$ An AED costs between \$900 and \$1,300, however based on a survey completed last fall, 94% of colleges have AEDs on campus and only 6 schools do not have any AEDs. There are 13 other colleges in which the college has AEDs, but in a high-risk area such as physical education/athletics, the athletic trainer doesn't have immediate access to them. So just a few colleges will be affected and be required to purchase a device, while an additional 13 may have to redeploy the devices they have. Of the current AEDs deployed at community colleges, more than a third were paid for by grants, donations, etc., and the vast majority was paid for by funds unrelated to the athletic training/physical education budget. It is likely that many of the new AEDs that will be required by this amendment may not cost the schools/districts anything. There is a one-year phase in to allow colleges to obtain alternate funding and the CCCATA can assist with that.</p> <p>Effective date: July 1, 2011</p> <p>Constitution Committee: Filter okay.</p> <p>Policy Committee: Filter okay.</p> <p>Finance Committee: Filter okay.</p>

This addition to the Form 1 will assist the compliance/eligibility clerks in identifying correctly the recruitment areas to be marked on the Form 3. For a number of reasons, it has become difficult for compliance/eligibility clerks to correctly identify recruitment areas. Names of cities have changed, new schools have been added to districts, and there has been a high turnover of compliance/eligibility clerks, who are not familiar with recruitment areas. Therefore a high number of errors presently occur on the Form 3's. With this addition to the Form 1, each athletic administrator can clearly identify the proper recruitment area to be checked by the Compliance/ Eligibility clerk when completing the Form 3. Coaches shall then select their top 20 officials, place in rank order rank these 30 officials, list their 3 non-preferred officials, and return their ballot to their respective coordinators by January 27. After tabulating the results from this 2nd ballot the coordinators will create a master ranking list by February 1. This list shall act as the pool for the assignment of officials to the regional and state championships event.</p>	To provide a better, deeper pool of officials who will be available to works post-season regional and state games.	This change was recommended by the officials' assignors. Since most of the officials on the top list work several divisions (NCAA DIII, DII and NAIA), many times the top officials on the list are not available to work Community College games. In the past SID's and Media – newspaper personnel or staff were on the committee. These persons were very knowledgeable about their local area. CCCAA ITEMS ADDRESSED BY BYLAW 4.1.3					
Tri-1-F10 per Bylaw 4.1.3 Originator: Richard Goldenson CCCTCA	Bylaw 3.11 Tennis	Postconference competition ends: 2 Sundays after the last Sunday in April *** *** <u>Unless the dates for the Ojai tournament have caused the Regional and State Championships to be moved to a later date, then the end-date of postconference competition will be extended accordingly.</u>	The intent of this additional language is to enable the Ojai tournament to always precede the CCCAA Regional and State Individual championships regardless of changes to the scheduling of the Ojai tournament.	This change is needed because there are occasionally changes in the Ojai tournament schedule due to issues such as the date of Easter Sunday as is the case in 2011. Effective date: October 8, 2010 Constitution Committee: Recommend approval through Bylaw 4.1.3. (See AE-3-F10.)	APPROVED <i>(per Bylaw 4.1.3)</i> 10/8/10
Tri-2-F10 per Bylaw 4.1.3 Originator: John Landicho CCCMVCA	Men's Volleyball Championship Handbook 1.2.1 and 1.2.2	1.2.1 CCCAA Men's Volleyball Regional April 26 18, 2011 1.2.2 CCCAA Men's Volleyball State Championship April 28-30 20-22, 2011	To keep the regional & championship matches in the week immediately following the Western State and Pacific Coast Athletic conferences' regular seasons. To avoid competing with up to four NCAA Division I men's volleyball matches in the Southern California area on the 23 rd of April.	The date changes will keep the regional & championship matches in the week immediately following the Western State Conference and Pacific Coast Athletic Conference regular seasons. In addition, the Mountain Pacific Sports Federation (MPSF) men's volleyball playoffs begin Saturday, April 23, and the championship finals date change would avoid competing with up to four NCAA Division I men's volleyball matches in the Southern California area on the 23 rd of April. Effective date: October 11, 2010 Constitution Committee: Recommends approval through Bylaw 4.1.3 (See AE-3-F10.)	APPROVED <i>(per Bylaw 4.1.3)</i> 10/11/10

FIC-1-F10 \$ Policy Originator: Richard Goldenson CCCTCA	Tennis Championship Handbook 1.2.1.C	C. CCCAA Tennis Regional Final: <u>For the Northern men and women, it will be the Wednesday, prior to the Regional Individual Tournament at the campus or venue provided by the higher seed. For the Southern men and women, it will be played on the Tuesday, prior to the Regional Individual Tournament at the campus or venue provided by the higher seed.</u>	This will restore the practice that was done prior to 2008 and will lead to cost containment and maximize transportation safety issues.	This will have cost-containment benefits as it will make it so that colleges are not required to provide lodging and meals to students who are not participating in the Regional Individual Tournaments; by the same logic these non-participating students will also not be required to miss class unnecessarily. For colleges who require coaches to drive students back to campus who are not participating in the Regional Individual Tournament, it will maximize the rest time for coaches who are required to return to their campus following the dual team regional final and thus will maximize transportation safety issues. Financial Impact: Colleges will not be required to pay for lodging and meals to students who must attend the 3-day event yet are not participating in the Regional Individual Tournaments. Effective date: October 29, 2010. Constitution Committee: Failed in Committee: Lack of clarity regarding need for date change.	Failed in Committee 10/6/10
