POLICY ITEMS - EMERGENCY - SPRING 2008 LEGISLATION					
Proposal No.	Article or Bylaw	Proposal	Intent	Rationale/Gender Equity Impact/Fiscal Impact/Proposed Effective Date	Decision
<b>P-1-S08</b>  <b>E</b>  Originator: Bruce Werner Big 8 Conference	Bylaw 4.3.1.G	<p><del>G. FOR WATER POLO: Game disqualification—The official may issue a participant a disqualification which results in disqualification from that contest for overaggressive play or actions that are unacceptable within the spirit of the rules and are likely to bring the game into disrepute. All applications of the rule per the NCAA Rule Book.</del></p> <p><i>Adopted: April 6, 2007; Effective: July 1, 2007)</i></p>	Current rule is 1. being abused by coaches and officials, 2. causing confusion among coaches and commissioners in that many of these “disqualifications” are actually decorum violations that are not being reported.	This rule was passed at the insistence of water polo coaches. As a result, players are “disqualified” for decorum violations, but the “disqualifications” are not being reported. These “disqualifications” are actually ejections, but the participants are not sitting out the following contest. Also, because they are not reported as decorum violations, commissioners do not have the opportunity to review them and/or assign a “strike” to the action if appropriate.  <u>Effective Date:</u> July 1, 2008  <u>Constitution Committee:</u> Filter acceptable.  <u>Competition Committee:</u> Recommend Approval	<b>PASS</b>
<b>P-2A-S08</b>  <b>E</b> <b>\$</b>  Originator: Terry Stoddard CCCS&DCA	Swim Guide 1.2.B.	<p><del>B. The site shall be in the south on even numbered years and shall rotate south and north annually. The appropriate vice presidents of the CCCACA should work directly with the event manager, CCCACA President, COA Swim Representative, and the COA Executive Director. The site will be determined a year in advance at the state coaches meeting by a vote of the CCCACA. The site for the CCCAA Swimming and Diving Championships will be indoors the Belmont Plaza Pool in Long Beach, California, in the years 2009, 2010, 2011 and 2012. The event will be hosted by a Championship Meet Committee determined by the CCCS&amp;DCA Executive Committee and announced at their annual meeting one two years in advance of each championship. At the 2011 CCCS&amp;DCA annual meeting a decision recommendation for the ensuing championship site(s) beginning in 2013 will be made.</del></p>	Presently the championship event and championship host rotates annually from site to site, alternating north and south. The actual technical portion of the event has to adjust each year to the facility and host. Weather always has an effect on meet performance. Moving the meet to one indoor site and having it hosted by a Championship Committee will better meet the goals of the COA postconference competition as outlined in Bylaw 6 especially noted in 6.1.C, 6.1.G and 6.8.6, as it will:	Currently the site is in the south on even-numbered years and rotates south and north annually.  At the 2007 CCCAA Championships it rained and was windy. This affected the performances at the event. At the 2007 event there was a new event director and meet management team. The rain, wind and the inexperience caused delays in the meet which affected the performances at the event.  For the last few years the COA has been doing a Fall Festival on sites other than community college campuses. These festivals have been in keeping with the COA Constitution and specifically Bylaw 6. The precedence has been set, tried and tested, therefore, Swimming and Diving wants a chance to place its postconference competition in an equally appropriate market,	<b>PASS</b>  <b>As</b>  <b>AMENDED</b>

Since the best indoor facility in California is in Long Beach at the Belmont Plaza Pool, and the pool is used annually for various College (Pac 10, Big West, etc.) and CIF Southern Section Swimming and Diving Championships, and the traditional date of the event is already taken at Belmont, then, we would like to move the date of the event to an available date. In addition, this format takes into consideration the unique qualities of the sport of volleyball.</p>	<p>This format proposal allows for a more equitable competition. In the current double elimination format, the team that comes up through the losers bracket could play 5 matches prior to the championship match while the winners bracket may only play 3 matches prior to the championship match. On the final day, the losers bracket plays a match in the morning before playing in the championship match in the afternoon. By the time the final match arrives, one team is significantly more exhausted than the other. The punishment of working back through the losers bracket outweighs the reward for winning the first match of the day. The team coming from the losers bracket is often too exhausted to perform equally as well as the team coming out of the winners bracket. To get a true champion, it is believed that there should be equity in competition.</p> <p>Both teams will play 5 matches including the championship match providing equity in competition.</p> <p>This format provides teams with a set tournament schedule. The current double elimination tournament is dependent on the results of each match.</p> <p>This format has only one match for each team on the first night. <b>O-31-S08</b> Originator: Joe Dansby CCCWCA	Wrestling Guide 1.1.B-C.	<p><del>B. The required initial weight certification information must be in the office of the COA wrestling representative at least (3) days prior to the college's first scheduled competition. Section I of the CCCAA weight management program must be completed online at <a href="http://www.nwcaonline.com">www.nwcaonline.com</a> prior to the athlete's first competition.</del> Certification of additional student athletes shall follow the same guidelines prior to participation of the athlete. Non-compliance would result in forfeiture of scheduled contest involving non-certified student athletes. <u>Sections I and II of the CCCAA Weight Certification Program and the Weight Loss Plan will be accessible electronically by the CCCAA office. DO NOT mail copies of Section I, Section II or the Weight Loss Plan forms to the CCCAA national office. Please retain a copy of all CCCAA Weight Certification Program forms for your files.</u></p> <p>C. <u>In order to protect and ensure the integrity of the wrestling weight-management medical assessment data, the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports requires that the assessor performs the assessment and submits the data into the NWCA OPC program. The head coach, who will have read-only access, is required to confirm as correct within 48-hours the information entered by the assessor. An e-mail message will be sent to the head coach informing him or her that an assessment has been completed for each student-athlete. If no action is taken to accept the assessment within the 48-hour review period, the assessment information is automatically deleted from the institution's file. Failure to verify the assessment during the 48-hour period means the student-athlete must be reassessed and the certification process repeated.</u></p> <p style="text-align: center;"><i>Renumber remainder of section accordingly.</i></p>	To eliminate the requirement of submitting initial weight certification 3 days prior to competition. There is no rationale for the individual wrestler to wait 3 days prior to competition. The intent of C is to provide athletic trainers or assessors a separate code for inputting data and for the head coach to have a separate read-only code to review the data.	<p>Currently, the NCAA and NJCAA submit initial weight certifications, via online, to <a href="http://www.nwcaonline.com">www.nwcaonline.com</a>. This change will align the CCCAA with the NCAA rules, which the CCCAA adheres too. It would be similar to the requirement of submitting a Form 3 prior to competition. The COA will have administrative access to view these weight certifications on <a href="http://www.nwcaonline.com">www.nwcaonline.com</a>. Section C: Currently both the NCAA and CIF utilize this language, in order for the athletic trainer or assessor to have a separate code for inputting data and for the head coach to have a read-only code to review the data. This will ensure and control the inputting of data, the reviewing of data to ensure it is correct, prior to submitting on line.</p> <p><u>Effective Date:</u> July 1, 2008</p> <p><u>Constitution Committee:</u> Recommends this item be tabled until procedures are in place:</p> <ol style="list-style-type: none"> <li>1) “CCCAA weight management program” does not exist.</li> <li>2) No procedures or policies are in place.</li> <li>3) No interaction with the CCCAA office has occurred.</li> <li>4) CCCAA has no relationship with “nwcaonline.com”</li> </ol> <p><u>Competition Committee:</u> Recommends this item be tabled until procedures are in place.</p>	<b>WITHDRAWN</b>
